Ida Ahmad Q: Why is Angular 2 render function not invoked? My goal is to get a bootstrap alert like this I am using the native Alert Module from Angular 2. I followed the documentation. The problem is that the render method is not invoked.

```
import {Alert} from "../node_modules/alert/alert"; constructor(private _alertService:Alert) { } ngOnInit() { this.alertService.alert('Hello'); this.alertService.show('Another Alert'); this.alertService.error('Error'); this.alertService.info('Info'); } alerts.service.ts import {Injectable} from '@angular/core'; @Injectable() export class AlertService { constructor() { } alert(msg: string) { return new Alert(msg); } show(msg: string) { return new Alert(msg); } error(msg: string) { return new Alert(msg); } info(msg: string) { return new Alert(msg); } } My app.module.ts import { NgModule } from '@angular/core'; import { BrowserModule } from '@angular/platform-browser'; import { FormsModule } from '@angular/forms'; import { AlertModule } from "../node_modules/alert/alert"; import { AppComponent } from './app.component'; import { AppComponent } from './app.component'; import { DataTableModule } from 'angular2-datatables'; import { RouterModule }
```

Texts have a range of topics, from education, to language, to historical events, to mathematics, or anything that is worth of interest . by MK Hanis 2016 Cited by 4 Regional Portal, A web portal which promotes scientific research in Indonesia, in particular with regard to education . Regulasi Diri Dalam Belajar (Self-Regulated Learning) dalam Menggugat Kenegaraan Belajar Hidup ke-5 Fakultas Pembelajaran. Alternatively, you can download the PDF file directly to your computer,. Regulasi Diri Dalam Belajar (Self-Regulated Learning) dalam Menggugat Kenegaraan Belajar Hidup ke-5 Fakultas Pembelajaran. In addition to supporting regulation of internal motivation, regulation of internal regulation can also be performed, the research is performed in two dimensions of regulation regulation of internal regulation which is a motivational dimension and regulation of internal regulation which is a cognitive dimension. The researcher concludes that regulation of internal self-regulation will support the use of feedback in regulating learning as well as self-regulation of motivation for the purpose of completing the self-regulated learning tasks successfully. Regulasi diri The term regulation of internal self-regulation refers to regulation of self-regulated learning, is a technique used to increase one's achievement motivation and awareness of their level of self-regulation. Regulation of internal self-regulation is seen in a mechanism of self-regulation where there is an emphasis on learning, learning in the motivation of the study and learning as a process. Motivation is seen in the process of regulation of internal self-regulation where the motivation of the study is at the forefront. When students are self-regulated, they have a sense of certainty and mastery of their learning, which leads to a more productive approach. 2d92ce491b
